Gill's Quality Bulbs

OUR TULIPS are mainly imported from a reliable Holland firm. We strive for the best quality in top sized grade, which we supply, except where smaller sizes are listed, mostly in mixtures.

OUR DAFFODILS are Oregon and Washington growth except in a few cases where new or scarce varieties are imported from Holland.

OUR BEARDED IRIS are mainly grown by ourselves and Dutch Iris are Washington grown.

GOOD BULBS cost more than inferior ones and it pays to get the best grade. There is often a variation in natural sizes according to varieties and this is especially true of Daffodils and some tulips. For instance, small cup daffodils have smaller bulbs than trumpet types.

TENTH ANNUAL FALL CATALOG

For Forty-five years we have issued, annually, our Spring seed catalog. In this, our tenth Fall catalog, we offer you one of the most complete Fall catalogs on the West Coast. We list many new and standard varieties. Our daffodils are mostly grown in Oregon and Washington. Tulips and Hyacinths are mostly imported from the best Holland growers. There are some Oregon and Washington tulips available and we will handle some varieties. We send large bulbs that will bloom, with proper care, the first season. If you are not interested in this catalog please give it to a neighbor. We always strive to give you high quality bulbs and seeds.

Gill Bros. Seed Co., a partnership, was organized by two brothers, Edward E. Gill and Ray W. Gill. The present partnership is composed of Ray W. Gill, manager, his daughter Mrs. Helen Miller and her husband Cornelius Miller. *Edward Gill died July 2nd 1951 and his interest is now owned by his sons Everett Gill and Robert Gill who are partners.

HOW TO ORDER

Send all mail orders to GILL BROS. SEED CO., Montavilla Station, Portland 16, Oregon. Order early, as there is a heavy demand on some stocks and they may be exhausted.

Remittance must accompany your order. Stamps are accepted up to \$1.00. Money Orders, Express Orders, Bank Drafts and Certified Checks are preferred, although other checks are accepted for collection. Canadian orders for plants and bulbs require a permit with orders. Such orders require higher postage than U.S. therefore please add 15% to the postpaid prices on bulbs and plants or on seeds of one pound or more.

If remittance is short, we will send in accordance with the amount paid and thus avoid delay.

C. O. D. Shipments will be made if one-fourth of the total order is remitted with the order. You can save on C.O.D. charges by sending your remittance with your order. We do not send plants C.O.D. Please write correspondence on a separate sheet from your order.

Prices in this Catalog are postpaid to your address, unless otherwise noted.

You may order 6, ALL OF ONE VARIETY, at the dozen rate, unless otherwise priced. The dozen rate only applies to 6 to 12 of one variety.

OUR WARRANTY

The Gill Bros. Seed Company warrants to the extent of the purchase price that seeds, bulbs and plants sold, are at the time of delivery, as described on the container, within recognized tolerances. Seller gives no other or further warranty, express or implied.

SHIPMENT OF YOUR ORDER

We will fill your order whenever goods are in stock. Daffodils, Tulips, Hyacinths and most of the Fall bulbs for Fall planting are usually in stock by September 15th. Perennial plants are sent in Fall or Spring.

When your package is received, open it so that the bulbs will not mold. If not satisfactory please write us at once. Weather conditions permitting, plant at once if the proper season for the type.

SUBSTITUTION

IN VIEW OF THE FACT THAT SOME ITEMS ARE SHORT THIS SEASON, we would suggest that customers give as much as possible their permission for us to substitute the nearest variety to the one ordered in case we should be sold out. On items of small importance, or during the rush of planting season, when time is precious, we may send out other similar sorts, if out of the ones ordered. Such substitutions may be returned for credit if unsatisfactory to the purchaser.

OUR CATALOG

This is not a stock catalog but is prepared for the printer by ourselves. Our firm is not a corporation but is operated by the owners represented above. With every order we enclose a bulletin on the culture of the various bulbs.

DAFFODILS OR NARCISSI

Although the common English name "Daffodil" is more popular than the botanical name "Narcissi," either name is being used for these useful spring flowers. The Jonquil is only one of the many groups of Narcissi.

While this is not a long list they are all proven varieties. Our bulletin on fall bulbs is sent free with each order sent out. Bulbs available about September 10th. We send large, healthy bulbs, mostly Oregon and Washington grown. Daffodil prices postpaid, including 4th zone. For 5th zone and beyond send 10% additional.

If you order 6 at the dozen rate they must be all one kind. If you order one dozen you may select 2 kinds, 6 of each at the dozen rate.

Yellow Trumpets

AEROLITE (See inside back cover)—Star shaped, deep primrose perianth, with yellow trumpet. A splendid, large, cut flower. Each 20c; 3 for 45c; doz. \$1.65.

BEN HUR—A glorious "loud speaker" trumpet of pure Roman Gold, 2½ inches across at the mouth. Regardless of its immense size the flowers are well proportioned. One of the best. Each 20c; 3 for 50c; doz. \$1.85.

DIOTIMA—A giant of graceful formation. Rather flattened stems, often 2 feet long. Star shaped perianth of medium primrose often 5 to 6 inches across. The trumpet is a little deeper in color. Each 40c; 3 for \$1.10; doz. \$4.00.

SUCCESSOR—A very late deep golden yellow trumpet daffodil of superb yet graceful proportions. Massive overlapping deep golden yellow perianth, large, flaring, well formed trumpet. Very vigorous grower. One of the best. Each 20c; 3 for 50c; doz. \$1.90.

UNSURPASSABLE—One of the best newer Dutch yellow trumpets. Golden yellow throughout it has ideal proportions, good size stature and build. It forces well and early. Each 35c; 3 for 95c; doz. \$3.25.

Giant King Alfred Daffodils

HALF POUND SIZE—For those who wish these extra large bulbs we offer as follows: Postpaid to 4th zone inclusive. 3 for 85c; doz. \$2.50; not prepaid, doz. \$1.90; 100 for \$14.00. F.O.B. Portland.

JUMBO GIANTS—Postpaid. 3 for 85c; doz. \$2.50 to 4th zone inclusive. Not prepaid, doz. \$1.90; 100 for \$14.00. F.O.B. Portland.

NO. 1 SIZE bulbs 3 for 45c; doz. \$1.60; 100 for \$12.00. Postpaid to 4th zone. Beyond this send 10% extra for postage.

Barrii Type

The cup in this class measures less than one-third the length of the perianth segments.

ALCIDA—Creamy yellow perianth with orange-yellow crown, margined red. Sturdy, late flowering variety. Each 20c; 3 for 40c; doz. \$1.45.

MAGIC FIRE—Striking flower of great substance. Pure white, well overlapping and broad perianth, small cup with fiery red rim. One of the best show flowers. Each 20c; 3 for 45c; doz. \$1.50.

MRS. NETTE O'MELVERY—Sometimes referred to as the fairy or dancing daffodil. Pure white perianth and cup of clear lemon-yellow with orange picotee; splendid foliage, tall, graceful stem and good neck. Each 20c; 3 for 45c; doz. \$1.50.

Large Cupped Daffodil

This type has white perianths, while the crowns are white or light yellow, sometimes lightly tinged with pink or apricot. The dainty Star Narcissus.

CARBINEER—A magnificent flower of splendid carriage and great substance. Broad flat golden-yellow perianth standing at right angles to the large bright orange red cup. Each 40c; 3 for \$1.10; doz. \$3.75.

DAISY SCHAFFER—Large, flat, well overlapping pure white perianth with large, widely opened cup of very light primrose, beautifully frilled at the edges. An outstanding variety. We consider this one of the best. It is very dainty yet large and will make splendid flowers, even when planted late. Each 25c; 3 for 70c; doz. \$2.50.

DAMSON—Very striking, brilliant flowers with fine substance; broad creamy white perianth shaded yellow at base, long cup of intense deep fuchsia red. Each 20c; 3 for 45c; doz. \$1.50.

DICK WELLBAND—Very popular and a very strong grower and free flowering. The perianth is white and the cup flame orange-red. The color does not fade and intensifies with age. Outstanding because of its distinct contrast. Each 20c; 3 for 45c; doz. \$1.50.

FRANCISCA DRAKE—Pure white perianth, yellow at base; broad cup, golden yellow at base and bright orange at the frilled edge. Each 20c; 3 for 45c; doz. \$1.50.

FORTUNE—A giant of magnificent stature, perfect form and splendid color. Broad, flat, well overlapping perianth of clear golden yellow; large long cup of intense glowing deep orange throughout; finely ruffled at the brim. Early and free flowering; fine substance. Each 25c; 3 for 65c; doz. \$2.25.

FORTUNE'S BOWL—Good yellow perianth and deep red cup. Each 35c; 3 for 85c; doz. \$3.25.

JOHN EVELYN—Pure white perianth of large, round, strong, well overlapping petals; large cup of soft orange yellow, widely expanded and densely frilled at mouth. Each 20c; 3 for 55c; doz. \$2.00.

NOVA SCOTIA—Very large flat golden-yellow cup with heavily fringed deep orange margin, perianth creamy white. Each 25c; 3 for 70c; doz. \$2.35.

RUSTOM PASHA—Large flower, intense golden yellow perianth, long crown of deepest orange-red. Each 60c; 3 for \$1.50; doz. \$4.95.

SCARLET ELEGANCE—Deep yellow perianth with bright orange-red cup of medium size. Tall stems and long lasting flowers. Ideal for cutting. Each 20c; 3 for 45c; doz. \$1.50.

SILVER STAR—Perfect broad-petaled star-shaped perianth of pure cream white, with finely proportioned, wide-mouth trumpet of primrose changing to cream-white, just a shade deeper than the perianth and free flowering, very fragrant. Each 20c; 3 for 40c; doz. \$1.40.

ST. EGWIN—Perfect uniform soft yellow throughout, perianth segments overlapping. Each 25c; 3 for 65c; doz. \$2.35.

TUNIS (See inside back cover)—Broad, pointed, creamy white perianth, slightly recurving, with wide expanded, sulphur yellow cup, edged amber, deepening with age. An outstanding variety. Each 20c; 3 for 45c; doz. \$1.50.

New Daffodils

This list of new daffodils comprises some of the best new novelties. Those who wish to feature new kinds in their garden or show should take note of these bulbs grown in the Pacific Northwest. Orders may be booked in advance for September and October shipment.

APRIL SHOWERS (Large Cup)—A large, pure white daffodil with overlapping perianth made out of very broad petals so that the flower looks like a large saucer. The cup is tinged with a soft and pale lemon and is very large, expanded and rather flat. A splendid novelty. We have purchased the entire stock of bulbs available this year. Each 75c; 3 for \$2.00 doz. \$7.00.

ARANGUEZ—Perfect overlapping perianth of light yellow with deep yellow cup margined with orange-red. One of the best show flowers. Each 35c; 3 for 95c; doz. \$3.50.

BINKIE (Large Cup)—Rare new color break, the perianth being pronounced lemon-yellow, the large flaring cup a pale lemon, bleaching to almost pure ivory. Good grower, attractive garden and show plant, highly recommended. Each \$2.00; 3 for \$5.75.

BRIDEGROOM (Short Cups)—Large with creamy perianth, yellow crown, narrow edging of orange, good substance and very late. Ideal for exhibition & cutting. Ea. 65c; 3 for \$1.75; doz. \$6.50.

BROUGHSHANE (Large Trumpet)—A glorious giant white ajax of perfect form. Trumpet is widely flanged, reflexed and frilled but does not outshine the immense perianth which is fully 5½ inches in diameter. The great flower of immense substance is very durable and has strong stems over 2 feet high while the foliage is 1½ inches in breadth. Immense vigor. Each \$2.50; 3 for \$7.00.

C. E. BAILEY (Large Cups)—Finest of the many pink daffodils raised by the late C. E. Bailey of Portland, Ore. The slightly wavy perianth is ivory white, the cup ivory-yellow on outside and rich cream pink inside with a broad, heavily fringed rim of pure rose. A late flower of great charm. C. E. Bailey was given a special posthumous award by the Oregon State Federation of Garden Clubs. Each \$2.50; 3 for \$7.00.

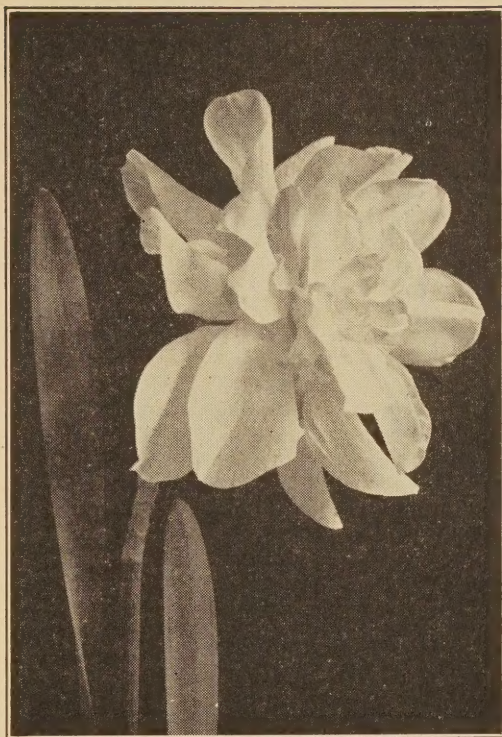

GRAPEFRUIT (Large Yellow Trumpets)—Outstanding new daffodil of novel coloring. Very large flower of uniform lemon-green color bleaching to almost true ivory with age. It blooms early but will stay in good condition longer than most. This daffodil is well named and will be very popular. Each \$2.50 3 for \$7.00.

KRAKATOA (Large Cup)—One of the finest new daffodils since Fortune. Where exhibited it has created a sensation. An immense flower with broad overlapping deep golden yellow perianth of fine substance and quality; the very widely expanded cup is bright flaming orange-red, beautifully flanged at the mouth. Flowers are short necked, well poised on strong stiff stems; robust plants. Each \$2.50 3 for \$7.00.

FLYING DUTCHMAN—White flower with very interesting orange spot and nicely formed cup. Each 75c; 3 for \$2.15.

ORANGE BLOSSOM—Deep yellow cream color with orange trumpet. This flower retains the orange color better than most varieties. Similar to Fortune but later. Every garden should have this one. Each 25c; 3 for 70c; doz. \$2.45.

SMILING QUEEN—Outstanding in daffodil family. Large perianth with deep orange frilled cup. Each 70c; 3 for \$1.95.

Double Daffodil, Mary Copeland, page 4.

SWANSDOWN (Double)—A very striking novelty. A beautiful double with large milk white flowers of fine substance. The petals are exceptionally broad and form a perfect saucer as a background for the white feathery looking petals. Carried on a stiff stem and short necked. Ideal cut flower. Each \$2.75; 3 for \$7.50.

SWEET SEVENTEEN (Large Cup)—Large blooms in which the back petals are broad and rather round and very light yellow. The cup is wide, very frilled and of deep primrose color. A striking flower, ideal for display. It commands quick attention. Each \$1.50; 3 for \$4.25.

HILL BILLY'S SISTER—A very unusual, distinct orchid type flower on vigorous plants, with long stiff stems. Here we have two flowers set one above the other in duplex form. The back petals are of soft yellow, nearly three-fourths covered by another bloom of rich golden yellow. The inner flower is heavily filled and the blooms command attention in any display. Each \$3.00; 3 for \$8.50.

Polyanthus Narcissus

Splendid for forcing and much used to place in bowls of water, braced with rocks or pebbles.

CHINESE SACRED LILY—Fragrant white flowers with yellow cups. Large bulbs. Can be grown in bowls of water for forcing. Each 20c; 3 for 55c; doz. \$1.85.

GRAND SOLEIL d'OR—Deep golden yellow perianth with orange yellow cup; borne in clusters. Each 20c; 3 for 55c; doz. \$1.85.

PAPER WHITE—White perianth and cup; very fragrant. Valuable for early forcing. Each 20c; 3 for 55c; doz. \$1.95. ;

Daffodils in Mixture

SELECTED HYBRIDS—This is your chance to grow some fine daffodils at low cost. One of the largest American breeders has developed many select hybrids to grow for further trial. These were grown to full blooming size. The rigid standards set by him require something different or superior to varieties already introduced before they could be named. The ones which failed to win names and introduction are included in this mixture. Many of these were outstanding new varieties such as would be expensive as new sorts. You can have many new varieties at very low cost. It is interesting to watch them bloom and the high quality of the flowers will surprise you. This is the best bargain we have ever offered in Daffodils. (Double Nose No. 1 bulbs.) Grown in Oregon. Several types are included. You will not make a mistake if you order liberally. Each 20c; 3 for 50c; Doz. \$1.85; 100 for \$12.50. Postpaid.

MARVEL MIXED—This contains all the main types of daffodils, in large bulbs in a wonderful mixture of Oregon grown bulbs. Don't miss buying this mixture offered at this reasonable price. Here is a mixture we are confident will give you real satisfaction. 3 for 40c; doz. \$1.50; 100 for \$10.75. Postpaid.

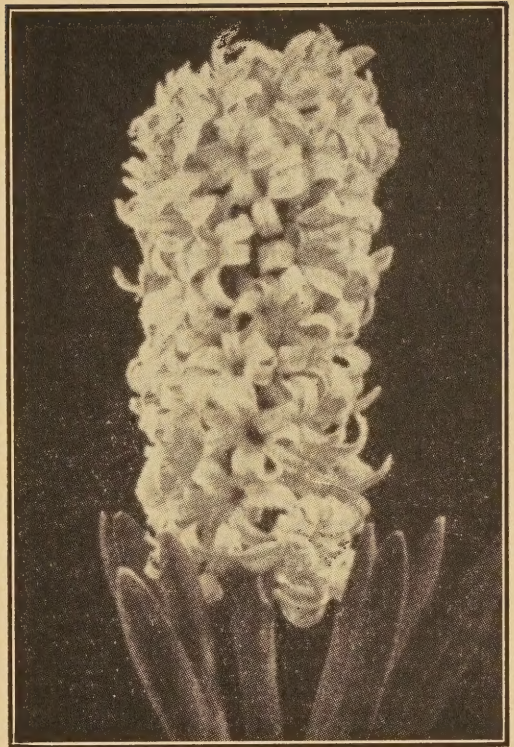

Oxalis

It can be grown in pots inside or planted in open ground in the early spring. It blooms from early summer until frost and grows 8 to 10 inches tall. Ideal for beds and borders. If planted outside they should be dug in the fall like gladiolus, except in mild climates where they may be left in the ground. Prices postpaid.

HIRTA—Large, deep pink flowers. Winter blooming. 6 for 30c; doz. 50c; 100 for \$3.75.

BERMUDA BUTTERCUP—Rich yellow. 6 for 30c; doz. 50c; 100 for \$3.75.

GRAND DUCHESS—Lavender, also offered in rose pink. 6 for 35c; doz. 60c; 100 for \$3.90.

Hyacinth, L'Innocence, see page 6.

Crocus

Chionodoxa

LUCILIAE—Also called Glory of the Snow. A fine early spring flower blooming with the Crocus. Sky blue flowers with pure white hearts. Very hardy and ideal for borders, beds, and for naturalizing. Plant September to November, 3" deep. 3 for 15c; doz. 50c; 100 for \$3.25.

LUCILIAE ALBA—White flowers in early spring. 3 for 20c; doz. 65c; 100 for \$4.00.

Tulip Bargain

BARGAIN MIXED—A mixture mainly from named varieties which were grown in Oregon and Washington. It contains the main colors in a good mixture. The size runs 1¼ to 1½ inches in diameter, large enough for nice blooms the first season. While the varieties are mainly late flowering types, such as Darwins and Cottage Tulips, it also includes early single and double types. Good healthy bulbs. Not less than a dozen for this offer. Doz. 75c; 50 for \$2.65; 100 for \$4.90. Postpaid.

HYACINTHS

These important flowers are now available in large bulbs ready to bloom the first season after planting. Their beautiful pleasing colors add much to the early spring flower garden. Plant 4 to 6 inches deep, preferably before December, spacing 6 to 10 inches apart. Valuable for forcing.

Prices for very large bulbs unless noted. (18 to 19 cm. size). Each 40c; 3 for \$1.10; doz. \$3.85. Hyacinth prices postpaid, including 4th zone. For 5th zone and beyond send 10% additional. Prices are based on one variety as quoted but you may order 6 of one kind at the dozen rate. Example: Do not order one each of several kinds at the dozen rate. They must be all of one kind at the dozen rate. To find the 100 rate, multiply the dozen rate by $8\frac{1}{3}$ and deduct 10% from the total. 100 rate not prepaid.

CITY OF HAARLEM—Very fine, earliest, bright golden yellow. Large truss.

DR. STRESEMAN—Attractive sky blue, large and broad well formed truss of large bells on strong stems. Good early forcer and bedder.

JAN BOS—Carmine, lighter centered bells: compact spikes. Good for early forcing and bedding.

KING OF THE BLUES—Deep glossy blue, splendid, well formed, long compact spikes on short stem, medium bells with great substance. Late forcer and good bedder.

Hardy Perennial Asters

New and Brilliantly Colored

These grand new varieties were introduced in 1953. Their new colors, large size and great profusion of bloom make them outstanding for late fall flowers. They are extremely hardy and of easiest culture. Prices: Unless otherwise noted, Each 75c; 3 for \$2.10; Doz. \$7.50.

ALASKA—Pure marble-white without any tinting; unquestionably the finest, purest white aster offered. Flowers are big; 2½ inches across and give a ray-like effect with double layer of flower petals. Makes a fine upright plant about 24 or 30 inches tall, covered with bloom.

ALCIDA—Brilliant, non-fading, clear and sparkling. Color is a glowing garnet-purple. The flowers completely cover a tightly growing plant which makes a mound about 20 to 24 inches high. It surely puts life into a faded summer border and makes a fine, strong contrast with other sorts.

AMBROSIA—Beautiful shade of peach pink and exceptionally bright large blooms. When in full bloom nearly covers the foliage.

ATLANTA—Plants make a huge bouquet of blazing gentian-blue. The clusters completely cover the plant. One of the best.

AQUILLA—This plant is almost cone-shaped, broad and upright. Grows 24 to 30 inches high. This cone of green becomes a magnificent mass of lightest pale blue in autumn. The flowers are about 2½ inches across, semi-double; completely hiding the foliage. A lovely delicate and clear effect in the autumn garden.

EDWINA—Immense flowers in shapely pyramidal clusters of light violet-blue. A color which sparkles in the sunlight and lights up the garden in autumn. Plants grow about 2 to 3 feet high with rigid stems and are profuse bloomers.

ERMA—The semi-double flowers are a beautiful light shade of orchid purple. Flowers are about 1½ to 2 inches in diameter, clear and brightly colored. The plant grows about 15 to 18 inches high, is rigidly upright and rounded. The flowers occur in tight clusters in a most profuse manner. A shapely plant of great beauty.

PALOMA—Here we have unquestionably the truest in deep blue. The flower spikes are pyramidal in form and about 24 to 30 inches in height profusely covered with blooms. Makes a beautiful show when planted with white variety Alaska.

SAMARIA—We consider this variety an improved Violetta. Flower clusters are free and upright. Deep campanula-violet would describe its color best. Grows about 30 to 36 inches tall. Blooms are large, brilliant and clear. Very prolific.

SELMA—The mound-like plants which are about 15 to 18 inches tall become invisible under a sumptuous display of bloom. No foliage remains visible at that time. The color is soft, clear, sparkling rose lilac. The flowers are about 2½ inches across.

WINSTON CHURCHILL—A very free flowering variety, producing rich ruby-crimson flowers. This English variety is the reddest of all hardy asters. It is exceedingly popular abroad and greatly admired in this country by those who saw it for the first time last year.

YOLANDA—The finest and truest pink in Asters. The flowers are semi-double, 2 inches or more across and grow upright on spikes instead of in flat clusters. Spikes are from 24 to 30 inches tall, rigid and heavily covered with blooms.

Shasta Daisies

NEW VARIETIES

We specialize in this wonderful Perennial. We offer many of the newest varieties as well as the standard sorts. They are very popular, very hardy and easy to grow. Plant in fall or spring.

COBHAM GOLD "The Golden Heart Shasta Daisy (See back cover) — The first color break in Shasta Daisies. This amazing new flower creates a sensation whenever seen. The formation is very double similar to Esther Reed except for a larger guard petal at the back. The flowers are larger and carried erect on long straight, sturdy stems. When cut the flowers last for 2 weeks or more in good condition. The golden center of real petals, not pollen centers, cover about one-fourth of the flower at the center, making a very striking bloom. The flowers are uniform and perfect. This hardy perennial is a great achievement. We will receive paid orders for fall delivery. Order early as there is a big interest in this variety. Hardy plants grown by ourselves. Supply limited. Each \$1.25; 3 for \$3.50. Postpaid.

HORACE READ (Plant Pat. 465) — Giant flowers, fully double, on long, erect stems of pure sparkling white. It looks like a pure white, double aster. The blooms have ideal substance and will provide long lasting cut flowers. There is bound to be a big demand for this fine new perennial. It blooms from May to October. Each \$1.25; 3 for \$3.00. Postpaid.

MARK RIEGEL (New) — Giant blossoms with broad glistening white petals which overlap into a double row. Long petals curving slightly at the tips. Soft pollen centers of light canary yellow. Stems slim but rigid, 2 to 3 feet long and often 15 to 20 flowers open at once on the plant. Flowers 4 to 5 inches across, lasting 2 or 3 weeks on the plant. Very hardy perennial. Each 50c; 3 for \$1.35; doz. \$4.85.

BEAUTE NIVELLOISE — Giant, 6 inch, white blooms with rays cut at the tips. Very robust and hardy; not common. Each 55c; 3 for \$1.50; doz. \$5.50.

EDGEBROOK GIANT — Huge, white single flowers of perfect form. Tall, vigorous growth. Each 60c; 3 for \$1.65; doz. \$5.85.

Select List Hardy Lilies

Most lilies require well-drained soil. Some shade on the ground is very good but the sun is needed around the upper plant. The soil should be fibrous and rooty; some leaf mold or peat should be added. Plant one foot apart. Charcoal and sulphur sprinkled in plantings helps to ward off worm attacks and blue mold. We offer large, blooming size bulbs. Our bulbs will be sent at the proper season. Most of our lily bulbs are grown in Oregon and Washington. Lily bulbs can not be kept too dry or too moist. Because of this we get our lily bulbs once a week to fill the orders on hand. This enables us to send them fresh. Figures give size of bulbs. Example, 7-8 means 7 to 8 inches in circumference.

We specialize in lilies. Note the new and standard varieties. Prices Postpaid in U. S.

AMABILE — Brilliant grenadine-red flowers, nicely spotted with black, carried on strong, slender, three-foot stems. Does well in full sun and will stand considerable drought. This intense color does not fade in sunlight. **Each 50c; 3 for \$1.40; doz. \$5.00.**

AURATUM (Platyphyllum) (Gold Banded Lily) — One of the largest and most beautiful of all lilies. The immense blooms are brilliant, sweet scented and artistic. We offer clean, healthy bulbs that will bloom the first season. White petals, dotted with small dark spots with distinct yellow band through the center of the petals. Large bulbs. **Each \$1.50; 3 for \$4.00; doz. \$14.50.**

BELLINGHAM HYBRIDS — Colors range from soft yellow, buff terra cotta, through shades of copper and orange to red, dotted with dark red or soft brown spots. Clusters of 20 to 30 flowers, on stiff stems 4 to 5 feet high. Mixture only. **Each 50c; 3 for \$1.40; doz. \$5.00.**

CASCADE "WHITE ELF" — A charming dwarf variety, 14" tall, with pure white flowers. This is the first dwarf Madonna lily variety ever offered. There is nothing lovelier. **Each \$1.00; 3 for \$2.75; doz. \$9.50.**

CENTIFOLIUM (Olympic Hybrids) — Beautiful, hardy garden lilies with vigorous growth reaching as high as 6 feet tall. The flowers range from trumpet shape to bowl formation. When to Plant Perennials

All hardy perennial plants are best when transplanted in the fall. Weather and soil conditions are usually good at that time. Very little winter protection is required other than a light covering of straw or peat moss or in some instances banking the soil up around the plant is best. There are however some tender perennials that require mulching in the fall. October is the time to plant most perennials.

Watsonias

Much like tall giant spikes of gladiolus that bloom during June and July. The spikes grow 4 to 5 feet tall and do best in a sunny location. Plant 3 inches deep. Fall planting is safe along the coast and they can be left in the ground over winter in those localities. In sections of severe cold it is best to cover with mulch or soil against freezing or dig and store over winter. Ready for shipment in the fall. **Mixed only: 3 for 40c; doz. \$1.35. Postpaid.**

Zephyranthes (Fairy Lily)

Dainty little flowers suitable for pots, rock gardens and borders. Ready in October. Blooms in Summer or Fall. Half hardy.

CANDIDA, WHITE — 3 for 25c; doz. 85c.

AJAX YELLOW — 3 for 40c; doz. \$1.40.

Tuberose

Lovely, large flowers of thick-wax-like texture on graceful, long, strong stems. Valuable in the gardens, also for cut flowers. They have a rich exotic fragrance. Plant after danger of frost, 2 inches deep to top of bulb. They prefer well drained soil and sunshine. The flower stems are about 15 to 20 inches tall and bloom in August and September. Near the West Coast they can be left in the ground over winter if protected, but in other sections it is best to dig and store them. Available in February. Offered in double. **3 for 50c; doz. \$1.75. Postpaid.**

Strawberry Plants

With the coming of the large, fine flavored, rich colored everbearing varieties there has been a greater interest in growing strawberries in the home gardens. They can be planted in October and early spring. Always select a well drained location convenient for watering the plants during the summer. We supply healthy, clean plants. It is not safe to order strawberry plants later than May 1st but they may be planted in October. No orders filled for less than one dozen.

Plants will not be sent **C.O.D.** Payment should accompany the order. If plants do not arrive in good condition, please notify us at once. When plants arrive they should be removed from the wrapper and place the roots in water overnight and plant the next day. If weather does not permit planting then plant them in moist sand and hold for proper planting weather.

STREAMLINER (Everbearing) — A variety of delicious quality, producing heavy crops of large berries. This berry originated in Oregon and has made quite a sensation. It bears throughout the season from spring until late fall. **Postpaid. Doz. \$1.25; 50 for \$4.35; 100 for \$7.95.**

MARSHALL (Standard type, not everbearing) — One of the best for market and home use. Large, dark red fruit with deep red color clear through the berries. Exceptionally fine quality for freezing and canning. **Doz. 65c; 50 for \$2.40; 100 for \$4.25. Postpaid. Write for quantity prices.**

NORTHWEST (New) (Standard type, not everbearing) — Large heart shaped, uniform berries with clear deep red through the fruit. Larger and heavier yielder than the Marshall. Vigorous, spring bearing plants producing a large cluster on high stems. Good for canning and freezing. Mid-season. **Doz. 90c; 50 for \$3.25; 100 for \$6.00. Postpaid. Write for quantity prices.**

TWENTIETH CENTURY (Everbearing) — Sometimes called Utah Centennial. A leading grower in Oregon rates this as the best everbearing strawberry and it has been highly recommended by many State Experiment Stations. It rates very high for size, quality and production. A vigorous grower, producing large plants. Bright red fruit of fine texture and wonderful flavor. Interior color is very good. It generally starts to bear within 60 days after planting and continues until freezing weather. We have dropped Brilliant, Red Rich and Rockhill in favor of this variety. We feel that we can recommend it. **Doz. \$1.35; 25 for \$2.25; 50 for \$4.25; 100 for \$7.50 prepaid. Not prepaid 250 for \$14.50; 500 for \$25.00; 1,000 for \$45.00.**

SHASTA — The famous strawberry of the Santa Clara Valley in California. In that location it is rated as an everbearing variety and irrigation is used. Here in Oregon it is rated as a two crop berry, that is a June crop and a fall crop. Early midseason and a fine producer of very sweet berries. The extra large berries are firm and red clear through. It is rated ideal for canning and freezing. Several hundred acres are being planted in Oregon and it looks very promising. **Doz. 75c; 25 for \$1.35; 50 for \$2.40; 100 for \$4.25. Prepaid. Not prepaid 250 for \$8.50. Ask for quantity prices.**

Other Berry Plants

We can supply Raspberry, Gooseberry, Grape, Blue Berry, Boysenberry, Nectarberry, Currant and various other plants. Please send for price list.

Garlic, Silverskin

Garlic

Garlic gives the best results on the Pacific Coast when planted in November. Available in fall or spring.

SILVERSKIN — Large, late keeping variety. Best commercial variety. **Postpaid. ½ lb. 35c; lb. 65c. Not prepaid. 5 lbs. @ 50c lb. Write for prices on quantities.**

Onion Sets

BOTTOM SETS — Small onions grown from seed planted too thickly to reach mature size. They produce green onions in a short time, or if left to grow, they will produce nice, large dry onions earlier than those grown from seed. It is best to use the smallest sets to provide dry onions and larger ones for green onions. Onion sets may be planted in September and up to October 15th. These will produce green onions available all fall and early spring. They can be planted at intervals from early spring until fall, thus providing fresh green onions all season. **Postpaid. ½ lb. 25c; lb. 45c; 3 lbs. \$1.15. Add 10% for 5th zone and beyond. Not prepaid, 5 lbs. @ 30c per lb.; 10 lbs. @ 28c per lb.**

YELLOW MULTIPLIER or SHALLOTS — Popular perennial that multiplies each year. Desirable for an early crop. Brown skin, mild white flesh. Plant in Fall or Spring. They produce excellent green onions. **Postpaid. ½ lb. 35c; lb. 65c.**

EGYPTIAN or TOP SETS — Popular, old fashioned perennial onion. Often planted along a fence. Available for green onions most of the fall and spring. It is best to plant them in the early fall, however, they can be set out in March and April. **Postpaid. ½ lb. 40c; lb. 75c.**

POTATO OR HILL ONION SETS — These old-fashioned onion sets are seldom available. They are planted in the spring and dug and cured in the latter part of August and used for dry onions. Long keepers, ideal for kitchen use. With a little care will keep the year around in good condition. Have them on hand for use anytime. Mild white meat. **Postpaid. ½ lb. 50c; lb. 85c.**

FRUITONE

It aids in setting fruit thus preventing premature drop of the fruit, flowers or leaves. Used on holly to prevent berry drop. **Postpaid. 2/5 oz. 25c; 2 oz. \$1.00. Write for quantity prices.**

OREGON GROWN ROSES

The finest roses grow to hardy and perfect form in the lower Columbia River area of Oregon where pure air, fertile soil and a long growing season are ideal for rose culture. This hardy stock continues to thrive when transplanted almost anywhere in the Northern States. A super strain of multiflora root stock produces sturdier and more beautiful bushes under any reasonable growing conditions.

All prices listed are NOT POSTPAID. In ordering please add 50c postage, shipping and handling charge for each rose order. For prompt delivery in November and December please have your rose order BOOKED BY OCTOBER 10th. Orders received after October 10th will be shipped as soon as the weather permits digging and shipping.

HIGH GRADE LAWN GRASS

WRITE FOR PRICES ON QUANTITIES. We supply grasses for golf courses and other large plantings. We will gladly quote you. **ALL PRICES QUOTED ARE SUBJECT TO MARKET PRICES.**

We specialize in high-grade lawn grass seed. During the past few years, we have supplied lawn seed for some of the largest institutions in the Pacific Northwest. Whether it is a small lawn or a large one, we can supply the seed and we will be glad to quote you for quantities either on mixtures or separate grasses. Many of the lawn grass mixtures on the market contain rye grass seed. We consider rye grasses too coarse and too rapid of growth to be included in mixtures and therefore omit them in our mixtures. We figure one pound to 300 square feet of surface. Write for free bulletin on "Lawn Culture" by Ray W. Gill.

In Western Oregon, Washington and California, September and October are ideal for sowing lawns. There is more moisture and annual weeds are killed by winter frosts. Be careful to plant early enough so that the roots will be established before hard frost might lift and break off the young roots.

GILBRO SPECIAL—This super mixture is composed of the finest bladed grasses which are selected on account of their great endurance. It will make a soft velvety lawn of uniform texture and appearance. All varieties in this mixture tolerate acid soils, thus they respond rapidly with acid fertilizers which in turn reduce the weed menace. We have many reports from our customers, who are highly pleased with this mixture. It is adapted to shade or sun. It does not contain white clover unless requested. This mixture contains 20% creeping bent, making it necessary to ask the following prices: **Postpaid, Lb. \$1.30. Not Prepaid, 5 lbs. or more at \$1.20 per lb.; 10 lbs. or more at \$1.15 per lb.**

PACIFIC COAST LAWN MIXTURE—Climate and soil conditions have much to do with the selection of varieties in lawn mixtures. This mixture is especially adapted to locations along the Coast and West of the Cascade Mountain range. It contains varieties which will respond in soils which are somewhat acid due to heavy winter rains. It is a very good mixture made from high grade grasses. It does not contain any rye grasses. It makes a hardy, fine bladed turf well suited to the average soil. It does not contain white clover unless requested. **Postpaid, Lb. \$1.10. Not prepaid, 5 lbs. or more at \$1.00 per lb.; 10 lbs. or more at 95c lb.**

SWEET SOIL LAWN MIXTURE—We are convinced of the advantage of having a high grade mixture of lawn grasses for soils that are sweet or rather alkaline. We offer here a good mixture of fine bladed grasses which will respond in this type of soil. We secure the best success where the grass varieties are suited to the climate and soil. **Postpaid, Lb. \$1.50. Not prepaid, 5 lbs. or more at \$1.40 per lb.; 10 lbs. or more at \$1.35 lb.**

MERION BLUE GRASS—A grass with superior root system and a thick turf excelling in richer color than Kentucky Blue Grass. The turf spreads quickly and one pound to 500 square feet is sufficient. It holds a green color all summer and will stand more acidity than Kentucky Blue Grass. **Per ½ lb. \$2.50; lb. \$4.50. Postpaid. Not prepaid, 5 lbs. at \$4.25 F.O.B. Portland.**

RED CREEPING FESCUE—Rich, fine bladed foliage, making a splendid turf for shade or sun. Especially suited to sandy soils, banks, and terraces. One of our finest grasses. Fine lawns have been seeded with this alone that give splendid satisfaction. **Postpaid, Lb. \$1.10. Not prepaid, 5 lbs. at \$1.00 per lb.; 10 lbs. or more at 95c lb.**

BLUE GRASS and WHITE CLOVER—Well proportioned mixture. **Postpaid, Lb. \$1.75. Not prepaid, 5 lbs. at \$1.65 lb.; 10 lbs. or more at \$1.60.**

POA TRIVIALIS—Valuable lawn grass for shaded locations. In appearance it resembles Blue Grass. **Postpaid, Lb. \$1.50. Not prepaid, 5 lbs. at \$1.40 lb.**

CHEWINGS FESCUE—Extensively used for lawns and golf courses. It makes a fine, close turf, very resistant to tramping. **Postpaid, Lb. \$1.15. Not prepaid, 5 lbs at \$1.05 lb.; 10 lbs. or more at \$1.00 lb.**

ASTORIA BENT (Blue Tag Grade)—A native acclimated sort grown in Oregon. Besides creeping on the surface of the soil it has jointed roots that creep under ground. It is the best bent grass for high, well-drained soils and is very resistant to drought. It is often found growing in almost pure sand. It makes a thick, close turf, with fine leaf blades. **Postpaid, Lb. \$1.65. Not prepaid, 5 lbs. or more at \$1.55 per lb.; 10 lbs. or more at \$1.50 lb.**

HIGHLAND BENT—Vigorous, quite drought resistant. Vigorous root creeping type. Slightly coarser foliage than Astoria Bent. **Postpaid, Lb. \$1.55. Not prepaid, 5 lbs. at \$1.45 lb.**

WHITE CLOVER—Often used for lawns. We offer a fancy grade of seed for this purpose. **Postpaid, Lb. \$1.65. Not prepaid, 5 lbs. at \$1.55 per lb.; 10 lbs. or more at \$1.50.**

KENTUCKY BLUE GRASS—A splendid general purpose grass for lawns, with hardy growth and fine, close turf. Extra fancy grade. It does best on sweet soil. **Postpaid, Lb. \$1.75. Not prepaid, 5 lbs. at \$1.65 per lb.; 10 lbs. or more at \$1.60 lb.**

Lawn Mowers

We handle high grade hand and power mowers. Write for prices.

Asparagus Roots

We can fill orders for planting in October and November. Also for Spring planting. Plant as soon as possible after being received. Do not try to harvest any asparagus the first season after planting and only a very light cutting the second year. Ask for our bulletin on asparagus culture.

CALIFORNIA No. 500—An improved strain being earlier, larger and more uniform than the regular Mary Washington. Prices same as Paradise.

PARADISE—This fine variety has the same rich green color and delicious mild flavor as the Mary Washington. It is very early, also resistant to rust and a heavier yielder. A worthy new sort of high table quality. **No. 1 grade. Doz. 75c; 50 for \$2.00; 100 for \$3.00. Postpaid. Not prepaid, 1000 at \$15.00.**

MARY WASHINGTON—Heavy producer with large green stalks of fine quality. Practically immune to rust and other diseases. This is now the standard variety for home or market production. **No. 1 grade. Doz. 60c; 50 for \$1.70; 100 for \$2.75. Postpaid. Not prepaid, 1000 at \$14.50. Write for prices on quantities.**

Rhubarb

Rhubarb can be planted in October and November, depending upon your locality. Fall planting enables you to have quicker results than spring planting. We offer good, strong divisions with good eyes to start the crowns. For quantities write for prices. Ready for shipment about October 20th. Do not pull any stems the first year after planting. Space 2½ feet apart in the rows and 6 feet between rows. If planting is deferred until spring set them out before May 1. If you are unable to set them out when received, plant in moist sand until ready. If the root divisions are planted in soil that is too dry they may fail to grow. On all rhubarb prices add 10% for Zone 4 and beyond.

CHIPMAN'S CANADA RED

This variety has very red interior in the stems and similar to Valentine. The exterior of the stems are bright crimson. The interior is really red throughout the whole length of the stem. Not a faint pink but a real red. Somewhat sweeter than most varieties. We consider it the best flavor of any variety we have tried. Each 65c; 3 for \$1.75; doz., \$5.65. Postpaid.

VALENTINE, New Rhubarb

This new variety is very large and of fine quality and color. Largest of the new "all-red" varieties. Color an even, deep bright red. Texture: smooth and tender. Flavor: pleasing with slightly tart after taste. Valentine has the richest color, good flavor, the largest stalks, and the fewest seed stalks, of all the new red sauce producers. It seldom sends up a seed stalk. This variety scarce this season. Each 85c; 3 for \$2.25; doz., \$8.00.

MUSHROOM SPAWN

Offered in cartons or bricks. One carton of bottle spawn sufficient for 40 sq. ft. of bed. Produces fine white mushrooms. Postpaid. Per carton \$1.45. Culture bulletin with each sale.

FIELD SEEDS

We are located in the Willamette Valley, Oregon, where many varieties of field seeds are grown. We handle high grade seed and will be glad to send you our current price list anytime. Prices are subject to change at all times and F.O.B., Portland, Oregon. In case you need field seeds in a hurry send in funds and we will fill your order at the current price. In ordering, please give shipping instructions.
